28479	18 inches
28480	20 inches
28481	24 inches

RETROFIT KIT

HI-PERDRAIN RF

With the HI-PERDRAIN RF adapter kit (P/N 28512), retrofitting a sump cover drain is a snap. Using a hole saw (such as RadonAway's P/N 28282-32), just cut a 3.5" hole in the cover, drop in the adapter and seal in place.
